## Fort Wayne Sentinel.

SATURDAY, AUGUST 29, 1857

**FOR SALE.** A good 8x10 story JOB PRESS—size of plate 18x20 inches, warranted to do good work. Also, a CARD PRESS, nearly new, at a great reduction from first cost. Inquire at the Sentinel Office.

We have been absent in Cincinnati most of the week, purchasing a larger press with a view of enlarging the Sentinel. In a few weeks we hope to present our readers with a sheet of such dimensions as will enable us to give a large additional amount of reading matter.

The *Cass*.—We have encouraging news from almost all parts of the district. The nomination of Judge Worden gives the utmost satisfaction to democrats everywhere; while the abolition sentiments of his competitor are so distasteful to many who have heretofore voted against us that they will now support Judge Worden. All we need to secure his election is to have a full vote; and to secure this, active means should be adopted in every township. Let committees of vigilance be formed in each township, whose special duty it shall be to see that every democrat attends the polls. If this duty is faithfully performed, success is certain.

County Auditor.—The Times states that Mr. John Cochran is to be the free school candidate for Auditor of Allen Co. What the free school question has to do with the election of Auditor, or what the Auditor has to do with free schools, is not stated. It is a mere dodge by which it is hoped to draw off votes from the democratic ticket, and is a trick to which no friend of free schools would ever resort. If this question is to be dragged into elections and political contests a feeling will be kindled against our free school system, which will do more to injure and destroy it, than the most active of its enemies could accomplish by open warfare against it.

We call on all friends of the free school to from down this insidious attempt to drag it into the arena of politics and endanger its permanency; and we call upon the democrats of Allen County to stand by their party, and not allow themselves to be drawn off by such shallow pretences. Mr. Pareto is our candidate, regularly nominated, and acknowledged by all to be faithful, honest, and eminently qualified to discharge the duties of the office with credit to himself and advantage to the county. Against Mr. Cochran personally, we have nothing to say; he is a worthy man, and respected by all our citizens. But we must protest against his allowing himself to be thus used for partisan purposes, under the specious pretence of being a free school candidate, and destroying the usefulness of our schools for the purpose of defeating a democratic candidate. It is the truest and the noblest of the opposition he must expect to be treated as such; and it would be more honorable to him to come out openly as a fusion candidate than to seek to conceal his office on such false pretences. We must confess we had a higher opinion of him and did not expect he would allow himself to be used for such purposes.

Is Mr. Case an Abolitionist?—The great effort of Mr. Case in his present canvass seems to be to prove that he is not an abolitionist. He has always been considered as such here, and it appears by the following from the Political Abolitionist, a paper published in Bryan, Ohio—where Mr. Case formerly resided—that he was recognized by all who knew him as an abolitionist, and that his present position is looked upon by his old associates as a repudiation of principle for the sake of office. Is such a man worthy a seat in Congress? The Political Abolitionist thus notes Mr. Case's nomination and the position he has chosen to assume for the purpose of obtaining votes:—

"Congress.—We learn that Charles Case, Esq., has been nominated by the Republicans for Congress, in Indiana, in the District formerly represented by Hon. S. Brenton. Mr. Case is a gentleman and a man of talent, and will carry out the republican idea if elected. When we first knew Mr. Case he was recognized by all who knew him as an Abolitionist—unwilling to be a man of his first race, and is willing, like others, to repeat the people for the purpose of being with a democratic party. He elected Mr. Case will make a very respectable member of Congress.—H. B."

Presentation of a Trumpet.—The members of Allen Fire Co. No. 1 last evening presented a beautiful silver trumpet to their active and persevering foreman Louis T. Bourke, as a token of their respect and regard for his efforts, and his meritorious services in organizing the company and bringing it to its present state of discipline and efficiency. The presentation was made by E. L. Chittenden, on behalf of the company, in a neat and well made speech, to which Mr. Bourke responded in an appropriate manner. Mr. Dawson and Mr. Dodge, being called, also addressed the company.

In addition to the company, a large number of our most prominent citizens witnessed the proceeding; and we hope the result may be that a better and more liberal feeling may be instilled into the public mind as regards the meritorious services of that worthy but little understood class of citizens, the firemen.

Oh, what a row!

We learn that there was quite a muss at a respectable boarding house in this city on Sunday night, arising from an attempt made by certain parties to inflict summary punishment on a person boarding there, who was charged with disturbing one of our best hotels. We have not heard the full particulars, but learn that our chivalrous neighbor of the Jail lost a coat given in the melee, and only saved his nose by a judicious use of his heels. His numerous, powerful and hairbreadth escapes will soon earn for him a reputation equal to that of his renowned prototype the adventurous Don Quixote.

Filing of the Laws.—Gov. Willard has issued a proclamation setting forth that the Acts of the General Assembly passed at the session of 1857 have been duly filed in each of the several county clerk's offices of the state, the latest date of filing being August 24th, in the county of Noble.

Mr. Douglas' Speech.—We refer our readers to Mr. Douglas' great speech on Kansas and the Dred Scott Decision, delivered at Springfield, Illinois, a short time ago, and inserted on our first page. It will apply, reply, a personal, and enable our readers to form a correct opinion of the merits of this question, which is the issue on which our approaching congressional election will mainly be fought. Read it attentively, and you will be prepared to resist the sophisms by which the abolition candidate hopes to wheedle you out of your votes.

### NEGRO EQUALITY.

The doctrine of negro equality, so strenuously advocated by Mr. Case, is so repugnant to the feelings and better judgment of all right-thinking men, that many who have heretofore acted with the republican party, boldly proclaim that they will not lead themselves to any scheme-seeking to engraft this principle upon our institutions. The Michigan City Enterprise, an able republican paper, thus proclaims its independence, and refuses further to follow the lead of such fanatics as Greeley and Seward.

"The people of Indiana are not yet prepared to accept the negro as an equal—either at the ballot-box or elsewhere. And we know of no feelings and better judgment of all right-thinking men, that many who have heretofore acted with the republican party, boldly proclaim that they will not lead themselves to any scheme-seeking to engraft this principle upon our institutions. The Michigan City Enterprise, an able republican paper, thus proclaims its independence, and refuses further to follow the lead of such fanatics as Greeley and Seward."

"The principle of welcoming blacks to Canada has been fully and fairly tested; and now all the lapse of many years, and the Canadian friends through the press—her statements and private citizens, almost unanimously concur in the expression, that while the condition of the negro in many instances has been benefited, their presence has deteriorated the morals of the whites—has engendered laziness—induced pauperism, dirt, and immorality to a frightful extent, and that while not wishing to drive them back into slavery—they (the people of Canada) decidedly favor some plan whereby they can all be placed in a colony by themselves."

There are no doubt hundreds of old line whigs in the Tenth District to whom Mr. Case's negro equality notions are as obnoxious as they are to the Michigan City Enterprise, and who will repudiate him and vote for Judge Worden, the white man's candidate.

Missouri Election.—Steward Elected.—Four hundred Majority.—The St. Louis Leader of yesterday says:—We can barely announce the result, which is certain, though the full official returns are not yet in. Dunkirk and Ripley are yet to hear from officially. It is said that even Dunkirk gives a majority for Stewart, but allowing that it gives 50 for Hellen, Stewart is still 400 ahead. The coalition is defeated. The Democratic party is victorious. Missouri, in this election, though nobody seemed to feel it, has been the battle ground of the Union—and the field is won—thank God!

Failure of the Atlantic Submarine Telegraph.—By the foreign news in another column it will be seen that the great enterprise of the age—the connection of the old and new worlds by telegraph—has, for the present failed. The line broke when about 350 miles were laid, and the vessels have returned to England. It is not yet determined whether to make another attempt this fall or wait until next summer.

We have never been so sanguine of the success of this enterprise as many of our contemporaries, and should not be surprised if it were ultimately abandoned as impracticable. Still we have every confidence in the judgment and energy of the parties concerned in its management, and have no doubt that they will do all that human prudence and foresight can do to ensure success. If the thing can be done they will assuredly accomplish their mighty undertaking.

Failure of the Ohio Life and Trust Co.—A great sensation has been created in Cincinnati and New York by the suspension of the Ohio Life and Trust Co. one of the oldest, and was supposed, safe banking institutions of the West. Nearly a million and a quarter of the capital of the Cincinnati merchants is deposited in this institution, and if the suspension should continue, it will most disastrously affect the business of the city. The difficulty originated with the New York Branch, and is said to have been caused by the culpable course of the cashier in rash speculations in the stock market.

It is thought the means of the institution are amply sufficient to save the depositors from ultimate loss; but the detention of their active cash means must prove ruinous to many of them.

Female School.—We direct the attention of parents to the notice of the reopening of the Female Academy, under the superintendence of the Sisters of Providence in this city. It is one of the best schools in the country.

Change of Owners in the Cincinnati Enquirer.—Messrs. Derby have sold out their interest in this valuable paper to Wash. McLean and James J. Farran, Esqrs.—the latter of whom assumes the editorial control of its columns. Under such management and direction the Enquirer will amply sustain its reputation, and receive the unlimited confidence of the democracy of the Queen City and the Buckeye State, and the West generally.

It is one of the best and most reliable papers we get, and always contains the latest news. By our present mail arrangements it is received here on the same day it is issued. Terms of the Daily, \$6 00 per annum; Weekly \$2 00.

Scientific American.—The Thirtieth Volume of this valuable and deservedly popular scientific and mechanical journal will commence on the 12th September. We regret we have not room to publish the prospectus, or do more than recommend every mechanic to subscribe for it. It is published weekly at \$2 00 per annum; 5 copies for \$9 00; 10 copies for \$18 00; 20 copies for \$36 00.

Premiums ranging from \$30 up to \$300, and amounting to \$1500 in cash, will be given to the persons getting up the largest clubs. Address Muns & Co, Fulton Street New York.

### Arrival of the Anglo-Saxon.

New York, August 28.  
The steamship Anglo Saxon, with dates from Liverpool to the 12th inst, arrived at Quebec yesterday.

The Ocean Telegraph was progressing favorably. The rumored suspension of negotiations in the Spanish-Mexican difficulty is unconfirmed. France, Russia, Prussia and Sardinia have suspended diplomatic relations with Turkey. Owing to an accident at the shore connection with the landing of the cable, the expedition did not finally sail from Valencia Bay until the evening of Friday the 7th inst. The latest report from Valencia is dated August 10, four P. M. as follows:

"The work of laying down the Atlantic cable is going on as satisfactorily as the friends of the great enterprise could desire. Up to the present time about three hundred miles of the cable have been laid. The depth of water into which it is now being submerged is nearly two miles. The laying of the cable on shallow to deep water was effected without difficulty. The signals from on board the Niagara are everything that patriots could desire."

"The steamers are heading west with a moderate fair breeze, and the cable is being run out from on board the Niagara at the rate of about five miles per hour, and messages are continually received on shore."

The following is the last flash from on board the Niagara: All well on board—moderate westerly wind—all are more and more trustful of a complete success."

Lord John Russell had reported from the Select Committee that the Jews could not be admitted as Members of Parliament under the existing act for a modification of oath.

Lord Palmerston has stated that there had been discussion with the English and French Governments relative to the Principality, not as to their union, but simply as to the regularity of the election.

Lord Palmerston submitted to the House of Commons difficulties with France in regard to the Mexican elections, and stated that it had been decided in a conference at Osborne to recommend the Sultan to annul the late elections.

There was good reason to believe that Austria would concur with the decision arrived at between France and England, and that the Sultan, seeing that there was nothing in the measure recommended that would compromise his dignity or independence, would adopt their views and declare the election void.

Lord Palmerston said that there was no ground to apprehend any estrangement between France and England on account of the Moldavian difficulty.

A spirited debate had taken place in Parliament in regard to the affairs in India. Lord Palmerston stated that thirty thousand troops had been sent out, and that active recruiting was going on.

Mr. Disraeli expressed an opinion that the Emperor and Empress had returned safely to Paris.

Later Indian news was momentarily expected when the Anglo Saxon sailed.

French news is of little interest.

The journals unanimously support the attitude assumed by the French Ambassador at Constantinople.

A dispatch from Vienna states that the representatives of France, Russia, Prussia and Sardinia have announced in notes, couched in precisely similar terms, the cessation of diplomatic relations with the Porte, and their approaching departure from Constantinople.

The Russian Ambassador struck his flag on the 6th inst.

The Paris correspondent of the London Times says that the leading difficulties in regard to Moldavia will be submitted for solution to a conference of the representatives of the various powers meeting for Flour, and the market closed weak. The quotations are: Western Canal 30s 3d; Philadelphia and Baltimore 30s 3d; Ohio 31s 3d. Wheat has experienced a decline in official quotations of 1d 2d; Red Sea 84d; White 93d 3d 9d, closing with a down; the previous quotations being largely maintained; Yellow and mixed each 36s 9d 3d; White nominal at 45s.

Arrival of the North-Star.

New York, August 25.  
The mail steamship North Star from Southampton, with London papers of the 12th inst, arrived here last night.

It was thought probable at London that the session of Parliament would close on the 23d inst.

The American horse "Priores" ran for the Stewards' Cup, at the race which took place at Lewes on the 11th, and came in 4th.

The London Times city article of the 12th inst says that the funds show an increasing heaviness. The possibility of a loan of \$10,000, being required to be raised by the home government for the East India Company was the chief question which weighed on the Stock and Money market. The question is not so imminent as to cause a serious depression for the moment.

From New York.—An extra from the Bank Note Register gives the following additional names of banks whose notes have been refused: Arcade Bank, Providence; Bank of Middletown, Pa.; Farmers and Drivers Bank, Waynesburg, Pa.; Home State Bank, Pa.; North American Bank, Seymour, Conn.; Ontario Bank and Plain Bank. We telegraph them as reported, without vouching for their accuracy.

New York, Aug. 25.

From New York.—It is currently reported that Messrs. Delany, Iselin & Clark, bankers, and John Thompson, banker and broker, and publisher of the Counterfeit Detector, have failed. The liabilities of the Ohio Life Insurance and Trust Co. are estimated at from five to seven millions dollar.

CINCINNATI, Aug. 26.  
Bank Matters.—Banking matters comparatively quiet to-day though Third Street is quite active. The notes of the State Bank are discounted yet. Bankers have agreed not to return the notes of Country Banks for 30 days. No run on any house either yesterday or to-day. Kansas \$50 discount.

WASHINGTON, Aug. 20.

Washington Items.—The General Land Office to-day decided against the pre-emption claim of a colored man to three hundred and sixty acres of land in Wisconsin, taking the ground of the Supreme Court in the Dred Scott case that a negro of the African race, whose ancestors were brought to this country and sold as slaves, is not a citizen within the meaning of the Constitution of the United States. This decision of the Land Office applies to other similar cases now pending.

Governor Walker in an official dispatch recently received, says that one point he has been grossly misrepresented, namely: as declaring every man should vote who happened to be in the Territory on the day of election for a ratification of the constitution. This, he remarks, was admitted by a case in which he stated, in full, that the only sufficient and usual proof of such a fact would be some previous residence. On this point, which is one of detail, he had never proposed to make suggestions to the Convention. Although when asked for his opinion by members of that body, he had declared that if such persons were actually bona fide settlers, but the only sufficient and usual proof of such a fact would be some previous residence. **A Just Contrast.**—The Lynchburg (Va.) Republic, in speaking of existing parties, says the following: "There is just the contrast between the Democratic party and the party to which it is opposed, that there is between an army of United States regulars and a band of military guerrillas. The one is a permanent organization founded on principle and necessity, with one common flag and uniform, of which they are proud, and the colors of which they never change without feeling an instinctive sense of shame and disgrace. When summoned to battle in the cause of their country, its legions march, and they march to battle with flags flying and drums beating, to conquer or die. The guerrilla is a different animal. His mode of warfare is fixed by no principle—his flag, he has none, except now and then when he assumes the colors of the Union, and then he is only a file one with which to deceive and decoy his adversary—his uniform is changed to suit the change of circumstances—he conceals himself in the chapparal instead of meeting his adversary in the open field—he fights for plunder and the spoils, instead of for God and liberty—and when honorably capitulating, he surrenders to the rear of an army, and when opportunity offers, falls full upon the baggage wagons and plunders them of their contents."

"These men, whether in Kansas or the tree States generally, who are stigmatized as 'Black Republicans,' and as peculiarly tenacious of the rights of colored men, are, with the exception of a few fanatical abolitionists, desirous of keeping blacks out of the Territories, whether as slaves or free men.—*Hartford Connecticut.*

"Oh! Freedom, from not for, 'the colored race'?" You want to keep them out of the Territories, 'whether slaves or free men'?" Why, you are worse than slaveholders! You coax servants to run away from their masters and then refuse them the right to live one of the Ten Commandments. You abuse Judge Tany for saying that you are not citizens in a certain sense, you assert your Black Republican Legislatures that they are citizens—and yet you now say that none but 'a few fanatical abolitionists' believe that colored men, bond or free, have any right to reside even to the head of your class, master Day.—*New Haven Register.*

**County Officers—A Correction.**—By the following from the State Sentinel, it will be seen that a rumor in relation to a decision of the Supreme Court making it necessary to elect certain county officers over again was unfounded, or at least premature.

A report has gone abroad that the Supreme Court would, in a short time, decide in favor of the constitutionality of the law fixing uniform commencement of the terms of certain county officers. This rumor is unfounded. The Supreme Court have not, as yet, arrived at any conclusion in the matter, and no action will be had upon it previous to the regular term of the Court in November next. This settles the question so far as the election of county officers is concerned, whose terms of office have not a uniform commencement.

The Supreme Court held an adjourned session yesterday afternoon, and adjourned. The Court will not meet again until the regular term in November.

**State Bank's Picture Gallery.**—The bills of the new State Bank are embellished with the portraits of Indians; and as we have had many inquiries put to us as to who these portraits represented, we reply as follows:

One—Hon. Samuel C. Sample, late of this town, and Samuel Merrill, former President of the State Bank, late of Indianapolis; both now deceased. Judge Sample's portrait is strikingly correct, and absolutely like.

Three—Bishop Ames, of Indianapolis, and Hon. D. G. Rose, of Lafayette; Hon. J. M. Linn, of Lawrenceburg, and W. C. Dewar, Esq., of Salem, and—St. Jo Register.

**Minnesota Convention.**—The idea seems to be generally entertained that the differences which have hitherto prevented the Democratic and Republican delegates to the Constitutional Convention in Minnesota, from co-operating with each other, are about being brought to a satisfactory adjustment. It is an honorable compromise can be agreed upon, we would not have been so much troubled, and the Convention would have been opened by the enfranchisement of the people of the Territory. We learn that the only material difference of opinion that exists between the two parties on the question of the Constitution is that the Republicans are in favor of attaching a clause prohibiting the liquor traffic, and another prohibiting the enfranchisement of negroes to both of these clauses the Democrats are opposed.—We will be glad to learn that the difficulties have been settled to the satisfaction of both parties.—*Chicago Times.*

**The Minnesota Intelligencer.**—The Chicago Times noticing the duplicate Constitutional Convention which is in session in Minnesota, says:

"We learn that the only material difference of opinion that exists between the two parties on the question of the Constitution is that the Republicans are in favor of attaching a clause prohibiting the liquor traffic, and another prohibiting the enfranchisement of negroes to both of these clauses the Democrats are opposed.—We will be glad to learn that the difficulties have been settled to the satisfaction of both parties."

**The Harvest in France is excellent.** In some places the reaping is over, and in other places, where the corn is not yet ripe for the sickle, the heat, which in Paris is intense, will be on bringing it to maturity. Letters from Bastia in Corsica, of the 13th of July, mention that in some parts of the land the yield of grain is superabundant, and good throughout the whole. The good harvest in France, and another good harvest in the United States, must bring the price of provisions once more to a fair standard, and all the arts of the speculators cannot prevent it.

**It is estimated,** says the Washington correspondent of the Philadelphia Press that the new dome for the Capitol will weigh seven thousand five hundred tons, and that its erection will take ten years. The new houses of Congress will be ready for occupancy by a year from next December, and not in the coming session as it was expected.

**A Washington correspondent** of the New York Times says that advice have been received from Kansas, stating that the peace has been restored, and that a reconciliation was confidently expected. Gov. Walker's force consists of six companies of dragoons, one company of infantry, and one company of flying artillery—in all about 600 men.

**All the men who were engaged** in the recent desperate mobbing of negroes in the vicinity of Evansville, were known to have voted the Black Republican ticket in October. The township in which it occurred contains but four Democratic voters. Nothing else could be expected from such a party.

**Republican Contrast.**—The Lynchburg (Va.) Republic, in speaking of existing parties, draws the following contrast: "There is just the contrast between the Democratic party and the party to which it is opposed, that there is between an army of United States regulars and a band of Mexican guerrillas. The one is a permanent organization founded on principle and necessity, with a common flag and uniform, of which they are ever proud, and the colors of which they never change without feeling an instinctive sense of shame and disgrace. When summoned to battle in the cause of their country, its legions are formed in massive columns upon the open plain, and they march to battle with flags flying and drums beating to conquer or to die. The guerrilla is a different animal. His mode of warfare is fixed by no principle—his flag, he has none, except now and then when he assumes a false one with which to deceive and decoy his adversary—his uniform is changed to suit the change of circumstances—his colors are changed in the chameleon fashion—his adversary is in the open field—his fight is for plunder and the spoils, instead of for God and liberty—and when driven from his hiding places, instead of honorably capitulating, he skulks to the rear of the army, and when opportunity offers, falls full upon the baggage wagons and plunders them of their contents."

These men, whether in Kansas or the tree States generally, who are stigmatized as "Black Republicans," and as peculiarly tenacious of the rights of colored men, are, with the exception of a few fanatical abolitionists, desirous of keeping blacks out of the Territories, whether as slaves or free men. "Oh! freedom from not for," the colored man? You want to keep them out of the Territories, whether slaves or free men? Why, you are worse than slaveholders! You coax servants to run away from their masters and then refuse them the right to live in one of the Territories. You abuse Judge Taney for saying they are not citizens in a certain sense, you assert in your Black Republican Legislatures that they are citizens—and yet you now say that none but a few fanatical abolitionists believe that colored men, bond or free, have any right to reside even in a Territory of the United States! You can go to the head of your class, master Day.—*New Haven Register.*

**County Officers—A Correction.**—By the following from the State Sentinel, it will be seen that the rumor in relation to a decision of the Supreme Court making it necessary to elect certain county officers over again was unfounded, or at least premature: A report has gone abroad that the Supreme Court would, in a short time, decide in favor of the constitutionality of the law fixing a uniform commencement of the terms of certain county officers. This rumor is unfounded. The Supreme Court have not as yet, arrived at any conclusion in the matter, and no action will be had upon it previous to the regular term of the Court in November next. This settles the question so far as the election of county officers is concerned, whose terms of office have not a uniform commencement.

The Supreme Court hold an adjourned session yesterday afternoon, and adjourned. The Court will not meet again until the regular term in November. **State Bank's Picture Gallery.**—The bills of the new State Bank are embellished with the portraits of Indians; and as we have had many inquiries put to us as to who these portraits represented, we reply as follows: One.—Hon Samuel C Sample, late of this town, and Saml Merrill, former President of the State Bank, late of Indianapolis; both now deceased. Judge Sample's portrait is strikingly correct, and absolutely like him. Three.—Bishop Ames of Indianapolis, and Hon D G Rose, of Laporte. Five.—Hon James Morris, of Indianapolis, late Attorney General; and F D Lanier, Esq., of the firm of Winslow, Lanier & Co, of New York. Tens.—Hon John S New man, of Centreville and John Ross, Esq, of Vincennes. Twenties.—Hon George H Dunn, late of Lawrenceburg, and W C Depauw, Esq., of Salem, Ind.—*St. Joe Register.*

**Minnesota Convention.**—The idea seems to be very generally entertained that the differences which have hitherto prevented the Democratic and Republican delegates to the Constitutional Convention in Minnesota, from cooperating in a satisfactory adjustment. It is an honorable compromise can be agreed upon, we doubt not but it will save much trouble and inconvenience to have but one Constitution presented before the people of the Territory. We learn that the only material difference of opinion that exists between the two parties on the question of the Constitution is that the Republicans are in favor of attaching a clause prohibiting the liquor traffic, and another providing for the enfranchisement of negroes—to both of these clauses the Democrats are opposed. We will be glad to learn that the difficulties have been settled to the satisfaction of both parties.—*Chicago Times.*

**The Minnesota Imbrago.**—The Chicago Times notice the duplicate Constitutional Convention which is in session in Minnesota, and we learn that the only material difference of opinion that exists between the two parties on the question of the Constitution is that the Republicans are in favor of attaching a clause prohibiting the liquor traffic, and another providing for the enfranchisement of negroes—to both of these clauses the Democrats are opposed. We will be glad to learn that the difficulties have been settled to the satisfaction of both parties.

The harvest in France is excellent. In some places the reaping is over, and in other places, where the corn is not yet ripe for the sickle, the heat, which in Paris is intense, will bring it to maturity. Letters from Bastia in Corsica, of the 13th of July, mention that in some parts of the land the yield of grain is superabundant, and good throughout the whole. The good harvests in Europe, combined with the luxuriant crops in the United States, must bring the price of provisions once more to a fair standard, and all the arts of the speculators cannot prevent it.

It is estimated, says the Washington correspondent of the Philadelphia Press, that the new dome for the Capitol will weigh seven thousand five hundred tons, and that its erection will take ten years. The new houses of Congress will be ready for occupancy by a year from next December, and not in the coming session as it was expected.

All the men who were engaged in the recent disgraceful mobbing of negroes in the vicinity of Evansville, were known to have voted the Black Republican ticket in October. The township in which it occurred contains but four Democratic voters. Nothing else could be expected from such a party.

**DESIRABLE REAL ESTATE**  
FOR SALE.  
THE subscriber offers for sale the well known and beautifully situated Tract of Land on which he resides, situated on the St. Joe Feeder, adjoining the old Fort Wayne, and containing about 20 acres. It is perhaps the most desirable property in this vicinity for a handsome SUBURBAN RESIDENCE, or it might be advantageously divided and would sell readily.  
**TOWN LOTS.**  
It will be sold cheap for Cash, if immediate application be made to the undersigned on the premises, or to the Publisher of the F. Wayne Sentinel.

**LACOUR'S ESSENTIAL OILS.**  
THESE OILS are obtained by Distillation at the Chemical Laboratory, Parish of Jefferson, of PRINCE LACOUR, author of LACOUR'S Chemical Analysis, and LACOUR'S Chemical Manipulations, LACOUR on the Manufacture of Liquors, &c.  
Purchasers are particularly requested to return the flasks and obtain their money, if the Oil does not give proof of its efficacy.  
LACOUR'S OIL OF COGNAC converted neutral spirit of a superior quality, of Imported Brandy, viz: Otard, Sazerac, Murett, Cognac, Poulney, Segnette, United Vineyard Proprietors, Castillon and London D. & B. Brandy. These liquors will have a full, rich, fruity and beautiful sparkling color. Common Rectified Whisky will be changed by the use of the Oil of Cognac to New York Brandy, Pine Apple Brandy, Common Cognac Brandy, &c.  
LACOUR'S OIL OF RYE changed Rectified Whisky to Monongahela Rye Whisky, Old Virginia Mal Whisky, Bourbon Whisky, &c.  
OIL OF CEDAR changes common Rectified Whisky to French Brandy, and a superior quality to French Whisky.  
OIL OF PEACH changes common Whisky to Virginia Peach Brandy, &c. Oil of Peach and Oil of Cognac will convert common Whisky to Apple Brandy.  
LACOUR'S OIL OF GIN converted the poorest Whisky to Holland Gin, Schiedam Schnapps, Rose Gin, Swan Gin, English Gin, &c.  
LACOUR'S CONCENTRATED ACID will, in five or six days, change five gallons of good Vinegar and twenty-five gallons of water to thirty gallons of the most acid Vinegar that can be found in the market. By the use of LACOUR'S Concentrated Acid, lemonade can be made for one dollar less than by any other process.  
FOR MAKING LIQUORS, LACOUR'S Oils require no preparation—only pour the Oil into the Whisky and shake well. The Liquors thus made will have a beautiful transparent color, and a fine head. LACOUR'S Oils exert three distinct properties in converting common Whisky to Brandy, Gin, &c. The first property combines with and subdues in the warm liquid particles the whole of the oil of alcohol (the Alcohol). The Whisky is thus deprived of that peculiar irritating and burning taste, and becomes a neutral spirit; the second property consists in an equally marvellous taste imparted to the liquor, which renders it palatable to the whole of the oil of alcohol (the Alcohol). The Whisky is thus deprived of that peculiar irritating and burning taste, and becomes a neutral spirit; the second property consists in an equally marvellous taste imparted to the liquor, which renders it palatable to the whole of the oil of alcohol (the Alcohol). TO PRINTERS.  
We have been about in Cincinnati the last of the week, purchasing a large press, with a view to enlarging the Sentinel in a few weeks we hope to present our readers with a paper of such dimensions as will enable us to give a large additional amount of reading matter.

The Census.—We have encouraging news from all parts of the district. The nomination of Judge Worden gives the utmost reason to demonstrate every where; while the addition of the names of his competitors are so numerous to many who have heretofore voted against us that they will support Judge Worden. All we need to ensure his election is to have a fair vote; and to secure this, no effort should be adopted in every township for the purpose of securing a fair vote.

County Auditor.—The Times states that Mr. John C. Worden is to be the free school auditor for the year 1898. What the free school auditor has to do with the election of Auditor is not clear. It is a mere dodge by which it is hoped to draw off votes from the democratic ticket, and is a trick to which no friend of free schools would resort. If this question is to be dragged into elections and political contests, it will be a shame to the State and a disgrace to the people.

Mr. C. Worden.—The Times states that Mr. John C. Worden is to be the free school auditor for the year 1898. What the free school auditor has to do with the election of Auditor is not clear. It is a mere dodge by which it is hoped to draw off votes from the democratic ticket, and is a trick to which no friend of free schools would resort.

Mr. Douglas Speech.—We refer our readers to Mr. Douglas' great speech on Kansas and the Free Soil Convention, delivered at Springfield, Illinois, a short time ago, and inserted on our last page. It will amply repay a perusal, and enable our readers to form a correct opinion of the merits of this question, which is the issue on which our approaching congressional election will mainly be fought. Read it attentively, and you will be prepared to resist the sophisms by which the abolition candidate hopes to wheedle you out of your vote.

NEGRO EQUALITY.  
The doctrine of negro equality, so strenuously advocated by Mr. C. Worden, is so repugnant to the feelings and better judgment of all right-thinking men that many who have heretofore voted with the republican party, holdy protest that they will not lend themselves to any scheme for propagating this principle upon our institutions. The Michigan City Enterprise, a reliable republican paper, thus expresses its independent opinion, and refers further to the loss of such fanatics as Greeley and Sewall.

The people of Indiana are not yet prepared to accept the negro as an equal—either at the ballot-box or elsewhere. And we know of no more of our Western States where a negro principle can command the support of even a substantial majority. There was a time when our countrymen favored the granting of certain privileges to the black race—but an extended acquaintance with their habits and morals, has satisfied us at the correctness of our former opinion; and it is a belief on which we have not been reforming. The doctrine of the equality of the races is a doctrine which is a curse and a blot upon the industrial, moral and religious life of the white race.

The principle of welcoming blacks to Canada has been fully and fairly tested; and now after the lapse of many years, our Canadian friends, through the press, the literature and private conversation, almost unanimously condemn the doctrine. There was good reason to believe that Austria would consent to the decision arrived at between France and England, and that the Sultan would not be so foolish as to refuse to accept the decision. Failure of the Atlantic Submarine Telegraph.—By the foreign news in another column it will be seen that the great enterprise of the age—the connection of the old and new worlds by telegraph—has, for the present failed. The line broke when about 300 miles were laid, and the vessel, which had been sent to lay the cable, was forced to return to England. It is not yet determined whether to make another attempt to lay the cable or not.

We have never been so sanguine of the success of this enterprise as many of our contemporaries, and should not be surprised if it was ultimately abandoned as impracticable. Still we have every confidence in the judgment and energy of the parties concerned in its management, and have no doubt that they will do all that human ingenuity and foresight can do to ensure success. If the thing can be done they will assuredly accomplish their mighty undertaking.

Failure of the Ohio Life and Trust Co.—A great sensation has been created in Cincinnati and New York by the suspension of the Ohio Life and Trust Co. one of the oldest, and was supposed to be the most reliable of the West. Nearly a half a million dollars of deposits were lost, and the company was forced to liquidate its affairs. The cause of the failure is not yet known, but it is supposed to be due to mismanagement and speculation.

The difficulty originated with the New York branch, and is said to have been caused by the speculative course of the cashier in rash speculation in the stock market. It is thought the means of the institution are amply sufficient to save the depositors from any loss; but the detection of their active cash means must prove ruinous to many of them.

Under such management and direction the Enquirer will be able to maintain its reputation and secure the confidence of the community of the Cincinnati and the Western States generally.

It is one of the best and most reliable papers we get, and always contains the latest news. For present mail arrangements it is received here on the same day it is issued. Terms: \$5.00 per annum in advance. Single copies 10 cents.

Scientific American.—The Scientific American, a valuable and instructive journal, will commence on the 12th September. We regret we have not room to publish the prospectus, or the more than recommended every mechanic to subscribe to it. It is published weekly at 25 cents per annum, 3 copies for \$5.00; 10 copies for \$15.00; 25 copies for \$35.00.

Premiums ranging from \$50 to \$500, and amounting to \$1000 in cash, will be given to the persons getting up the fifteen largest clubs. Address: Messrs. C. & Co., Fulton Street, New York.

Arrival of the Anglo-Saxon.  
New York, August 28.  
The steamship Anglo-Saxon, with dates from Liverpool to the 12th inst., arrived at Quebec yesterday.

The Ocean Telegraph was progressing favorably. The suspended suspension of operations in the Spanish-Mexican difficulty is unexplained.

France, Russia, Prussia and Austria have suspended diplomatic relations with Turkey. Owing to an accident at the shore connection with the landing of the cable, the expedition did not land until the 20th inst. The latest report from Valparaiso is dated August 10, at 5 P. M., as follows:

The work of laying down the Atlantic cable is going on as satisfactorily as the friends of the great enterprise could desire. (Up to the present time about thirty inches of water into which it is not being submerged is nearly two miles. The laying of the cable from shallow to deep water was effected without difficulty. The signals from on board the Niagara are everything that an electrician could desire.

The steamer is heading west with a moderate breeze, and the cable is being run out from on board the Niagara at the rate of about five miles per hour, and messages are continually received on shore.

The following is the last flash from on board the Niagara: "All well on board—moderate weather and all are more and more trustful of a complete success."

An Abandonment of the Topkapea Humberg.  
The modern and sensible men among the Black Republicans in Kansas have held a meeting in that Territory lately, and resolved to abandon the Topkapea Humberg and take part in the regular election for Territorial Delegates, which takes place in October next. Among the men who participated in the movement was Mr. Brown, the editor of the Herald of Freedom, and William T. Roberts, both prominent Black Republican leaders. They passed the following resolutions:

Resolved, That while we believe in revolution, we believe in a reasonable and practical course, and we do not justify a resort to such measures until all peaceful means have been tried and failed; therefore:
